COMMUNITY SCHOOLS

Seymour Community School Corporation Families,

We hope your summer break is going great! In a few short weeks, Seymour Community School Corporation students & staff will return to open the 2021-2022 school year. The first teacher day is Tuesday, August 3rd, and the first student day is Thursday, August 5th.

Since March of 2020, SCSC, along with schools across the nation, has been dealing with the COVID-19 pandemic and all of the safety protocols that are part of it. Our students and staff have done a great job complying with the safety measures and adapting to change. Thank you for your perseverance!

As we open the 2021-2022 school year, community conditions look good and are going to allow us to open schools in a more traditional manner. Masks will be recommended, per CDC guidance, (updated 7/30/21) for all students and staff. We will have masks available upon request for any person who would like to wear one. Additionally, all students will be in-person for instruction, with the exception of students enrolled in Owl Tech.

We will maintain our high standards of cleaning and disinfection, social distance as much as possible, and continue to promote good hygiene. To view our full school board approved plan, please visit our website: <https://bit.ly/scscfallreturn2021>

We look forward to seeing our SCSC families very soon.

Go Owls!

Sincerely,

Brandon Harpe
Superintendent
Seymour Community School Corporation
